

# VILLAGE OF GLENVIEW

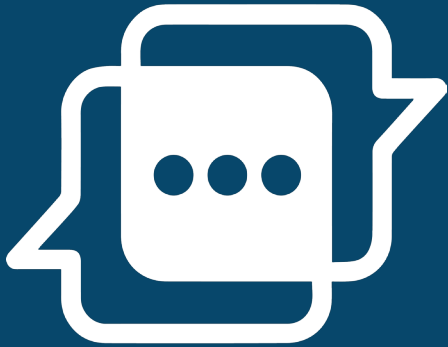

Open House #1

OVERVIEW

# HELLO PARTICIPANTS!

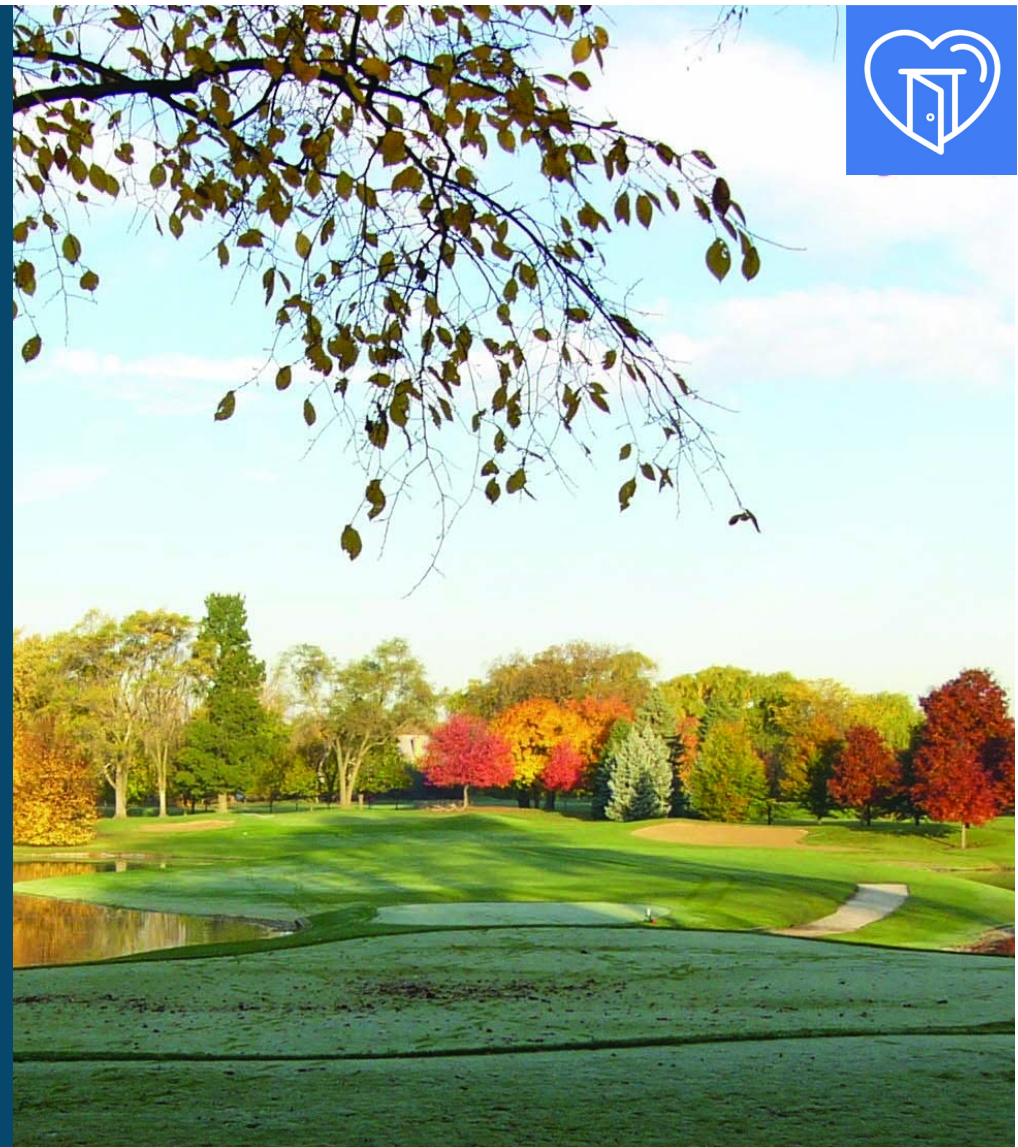

This brief packet will provide you with a glimpse into the exercises and activities we have planned for Open House #1. There will be three main sections to this meeting:

- **Summary of key themes & input analysis from Board Workshop #2 & other community engagement processes**
- **Land use triage presentation & public discussion**
- **Public interactive visual preference survey exercise**

# KEY THEMES

Summary of findings  
from "Write Your  
Headline" Activity and  
SWOT Analysis

Did you submit a Survey, Tour or Headline during or after our last meeting? Maybe you participated via Q/A Comments, here's your chance to see the themes prompted from our shared conversation.

# LAND USE TRIAGE

Showcasing the  
Opportunities &  
Constraints for the  
5 Study Areas

You drive, walk and bike the Village's streets every day. Now take a look from a technical point of view - what are the possible opportunities and constraints that influence the future of Glenview.

# VISUAL PREFERENCE SURVEY

Let's Build Our  
Community Together!

You heard the technical part and know what's possible, now you can participate in an interactive voting session to let us know what you want to see in your Village of Glenview!

**THANK YOU!**
